PROFILE

Frontend Developer skilled in HTML, CSS, JavaScript, and React, with hands-on experience in building responsive web applications. Proven ability to work independently and deliver project outcomes efficiently. Seeking a dynamic frontend role in a supportive environment.

WORK EXPERIENCE

Frontend Developer Intern

Mainflow Services Apr 2024 - Jun 2024

- Developed user interfaces using React.js.
- Collaborated with a remote team, following Agile methodology to complete bi-weekly tasks.

PROJECTS

Dynamic Stock Dashboard

Created a dynamic stock dashboard featuring candlestick charts using Recharts, styled with Tailwind CSS, and powered by mock data from a JavaScript file. [Live Demo](#)

User Management App

Built a feature-rich user management system with React and Bootstrap, integrated with a dummy JSON API to add, edit, and delete user records. [Live Demo](#)

Hotel Landing Page

Developed a visually appealing and responsive hotel landing page using only HTML and CSS, showcasing design skills and attention to detail. [Live Demo](#)
